

**netBlazr**  
free your broadband

**Position:**

## Director, Network Engineering

**Location:**

One Marina Park Drive, 14<sup>th</sup> Floor, Boston, MA

**Start date:**

Immediately

### About us:

netBlazr is a new venture that helps businesses build co-operative broadband networks which deliver free internet to the co-op members. *We are like Skype for broadband.* Our innovative wireless technology does an "end run" on Verizon & Comcast, and our Boston network is expanding with each new member joining. netBlazr wants to **free your broadband**.

**netBlazr** is a finalist in the 2011 MassChallenge and 2011 MITX Innovation Award Winner. We bootstrapped our business for the first 18 months and have just now closed a round of seed capital to accelerate our growth.

### Position Overview:

We seek a stellar chief of Network Engineering to join our founder team. Now is the time to get in on the ground floor and make an impact. We're looking for a proven technical leader to battle-test our pilot network and design & implement our next generation network which will optimize performance, security, and low cost operations. The Director will be a thought leader, mentor, and top individual contributor of netBlazr source code, design architecture, and implementation.

### Qualifications:

- Creative problem solver, with ability to learn quickly
- Strong desire to make an impact in wireless, networking and software development
- Ability to both mentor and lead members of netBlazr team
- Strong desire to "roll up sleeves" to solve technical problems by producing code and debugging fundamental design issues
- Cisco-certified Design Expert (CCDE), or equivalent experience
- 7+ years of networking experience
- Extensive knowledge of OSPF, BGP, and other routing algorithms
- Knowledge of cryptography including encryption protocols, and security and performance implications
- Knowledge of wireless security, Public Key Infrastructure, RADIUS and other AAA solutions
- Knowledge of Mikrotik router OS a plus
- Programming expertise in Java, as well as scripting languages
- Linux guru, l33t h@x0r

### To Apply:

Please send resume to **recruiting@netblazr.com** with "Network Engineering" in the subject line. We regret we can only respond to those candidates who meet the minimum qualifications. netBlazr is an Equal Opportunity Employer.
